Hotard Coaches is committed to providing you and your group with a safe and clean motorcoach. Each motorcoach is meticulously detailed after each trip. Our motorcoach operators have also been trained to clean critical touch points during charters as well as complete a screening questionnaire prior to departure. At Hotard, we believe staying safe during the pandemic is a team effort, here are some things you can consider to help keep your group safe:

- Use a screening tool (temperature check and/or questionnaire) prior to allowing passengers to board the bus
- Assign seats to your group for the duration of the trip
- Remind your passengers to use the hand sanitizer that is provided by the driver or bring their own
- Encourage everyone to wear a mask as much as possible while on the bus
- When possible, allow for additional seats between passengers
